## Daily Lessons & Activities for K-5 Students

Week  
7

The following weekly lesson planner is a tool you can use with your child to help guide learning at home. Each day includes 5 different grade-level lessons to support what your child is learning at school. These lessons are designed to be done independently by K-5 students, although we recognize every child's experience may vary. Some of these lessons may be easier than others, which is fine, as review of past material allows your student to practice valuable skills.

### **Math & Literacy Video Lesson (5-15 min)**

These video lessons are created by classroom teachers, allowing children to continue learning, even at home. These videos teach children a different concept every day.

### **Math & Literacy Activities (15-30 min)**

Reinforce the video lessons with these quick activities to practice the day's skill.

### **Art Activities (15-30 min)**

Help kids stay hands-on and active with these creative art activities while strengthening understanding in age-appropriate concepts.
